

# Non-infectious uveitis – scenes from the past, visions of the future

Ballroom 3, Hôtel Royal Savoy, RS Convention Center,  
Avenue d'Ouchy 40, 1006 Lausanne, Switzerland

Saturday, 21<sup>st</sup> October, 12:30–1:30pm

*This symposium will be conducted during the 2017 IOIS Annual Meeting*

## CHAIR

### Professor James Rosenbaum

Professor of Ophthalmology, Medicine, and Cell Biology, and Head of the Division of Arthritis and Rheumatic Diseases, Oregon Health & Science University (OHSU). Edward E Rosenbaum Professor of Inflammation Research. Chief of Ophthalmology, Legacy Devers Eye Institute, Oregon, USA.

## AGENDA

A lunch bag will be provided. Scientific program commences at 12:30pm.

- ▼ Non-infectious uveitis: disease or patient, who's in charge – are we entering the era of precision medicine?

**James Rosenbaum, Oregon, USA**

- ▼ Treating to target: how do we position the goalposts in non-infectious uveitis?

**Antoine Brézin, Paris, France**

- ▼ Can we envision clinical consistency in the treatment of pediatric uveitis – is there a window of opportunity?

**Athimalaipet Ramanan, Bristol, UK**

- ▼ The microbiome and uveitis: what educates the immune response?

**James Rosenbaum, Oregon, USA**

- ▼ Audience challenge – what are your answers?  
Interactive discussion and debate

**All**

This non-CME program is developed and offered by AbbVie.  
This is not an official program of the International Ocular  
Inflammation Society.
